

## Maire Forkin fashion designer

### More Affordable Than You Might Think

Featuring beautifully tailored pieces and timeless classics, Maire Forkin's new collection features exquisite detailing and luxury fabrics.

According to the designer "Women now want to buy an outfit that they can wear on many occasions, for example, weddings, race meetings, Ascot etc.

Outfits that can be dressed up or dressed down as they require. They are looking for something that is value for money, a statement piece that carries not just from season to season, but also from year to year". These Investment pieces are key now as Maire realises there is a big shift currently towards buying classic, timeless pieces while still maintaining a sense of originality.

Her collection is chic, edgy and beautifully tailored with very flattering silhouettes, carefully designed to flatter all figures. It appeals to a wide age range.

Maire will be designing a contemporary "Mother of the Bride Outfit" in the finalist of Confetti Bride of the Year Competition next May.

Other designs which are sketched here are also available for viewing in selected styles and a wide range of colours. This collection is made to order in both tailoring and evening wear. You can select from this contemporary collection for a perfect fit and to meet your individual needs.
